Procus seems to have dwindled away adly, in population, since the good old the note of the pistol and the swish of the bowie-knife furnished business for the undertaker and added to the population of the Penitentiary. There are but about 400 voters registered there, but 35 at Panaca and 61 at Bullionville. These are very surprising figures and justify the estimate of a short 500 votes in the entire county. Something of this condition of things is explained in the rush for the new district and town of Word, in White Pine county, where, as we understand, as many as 400 voters have been registered.—[Carson Appeal

It is a singular thing that whenever the Carson papers mention Pioche they invariably get off wrong. There are 650 voters registered in Pioche, though a number of these will not vote in this county having gone, some to Ward and some to Leeds. Utab. As for the "good old days" the Appeal spoke of, heir return is but a matter of time, and in the maantime we request the Appeal. when it does us the honor to mention Pioche to try and be moderately accu-tate in its statements. The latitude we sllow in a political article will not do where figures are concerned.

We deem it but common justice to say a relation to Billy Goodman, who reigned the foremanship of No. 1 last ight, that he deserves public recognition this services as chief officer of that Capany. Billy is a "rustler," and only migned on account of temporary ab-

meetings of both fire companies last eyening, and noticed among other things, the lack of interest shown by some of the members in the matter of non-attendance, &c. We know of nothing of more present interest to all our citizens, big and little, young and old, Republicans and Democrats, than this matter of protection against fire. In a town like this eternal vigilance is the price of safety. A fire allowed to get 20 minutes headway in this town would wreak serions disaster. Everyone knows this; a good many have reason to know it more vividly than we can state it. Now, as a good many of our fire boys are away on leave of absence and the fire roll is not what it was last Fall, those who are here and standing in, think that a few new members would be of great benefit in every way, and that renewed interest on the part of several of the old members 394, Tilien 204 and Cooper 2. At the would also be very acceptable. This is Gold Room: Hayes 91 and Tilden 65. something that needs no urging; the simple suggestion will be sufficient. We have three first-rate companies, well-officered, and everyone with his heart in the work; we have just as good water fa-cilities as can be found on the Coast, and only need a little prompt co-operation in the matter to be well-guarded against the enemy of all mining towns-the dread-

Fine Meering, -The regular monthly meeting of Piochs Hose Company No. I, took place at 7:30 last evening; Thompson Campbell in the Chair. The minutes of the last meeting were read and approved. The resignation of W. P. Goodman as Foreman was read and accepted, and Tom. Campbell elected to fill the office of Foreman for the unex-pired term. The question of derelict members coming up, it was ordered by a unanimous vote that several names be stricken from the roll of the Company, which was accordingly done. The Sec-retary was also instructed to report those names to the Court officers. lation to no longer exemption from jury duty. After some general discussion the meeting adjourned.

Fine Meering .- The regular monthly meeting of Protection Hose Company No. 2, was held last evening; Alex. Brown in the Chair. The chief business before the moeting was the payment of dues and fines, and the discussion of a by which to pay the debt still owed by the Company on account of the building fund. Measures looking to a speedy settlement of all outstanding claims were adopted, after which the meeting adjourned.

Walking out past the Court House with a friend yesterday afternoon, we noticed a flock of fluttering birds sitting mitted to it by some such compromise as that described by the London Post of the on the telegraph wires. The little things flow and chircuped, with the news of the world running in silent current under their feet. The rise and fall of the movements of Kings and armies; it was a similitude of the light and thoughtless surface action of our lives, while the deeper and sterner phase of our existence goes on in silent flow.

Good Indications .- We heard yesterday evening that a case of Henry rifles had been shipped to Leeds District. This is considered a good indication of a lively camp.

THOS. DEMASTERS was yesterday appointed Deputy Sheriff and Fire Warden for Pioche. The appointment is timely and a good one, for if ever a Fire Warden was needed it is at the present time.

INDIAN children attend the public schools in Carson. By the way, is there any law in this State to prevent them from going if they see fit? We believe not.

A new list of business men of New York have been prepared who are favorable to Tilden. This is headed by August Belmont, but contains no names se well-known as those supporting Hayes. Even Syracuse has mustered a few business men to sign a Tilden document as an attempt to neutralize the previous one. NEW YORK, Nov. 3 .- Wm. Wheatley,

LONDON, Nov. 3.—The Post publishes in official form the following paragraph: Turkey having accepted the armistice we understand Russia has taken steps to press forward negotiations for an arrangement of all the pending questions on the basis of the English proposals. The Post also states that official investigation shows that only 3,100 persons were killed by the Turks in Bulgaria.

San Fhancisco, Nov. 3 .- The arrest of twenty-right persons by the United States authorities on a charge of improperly getting on the great register, and known fact that other warrants have been issued from the United States Attorney's office has created a decided breeze among the Democrats from the fact that those arrested thus far are of Democratic faith. Governor Irwin and Mayor Bryant held a conference on the matter this morning and communicated with United States Attorney Cogolan, the result of which was an agreement that the seven persons now in the county jul should have a hearing this afternoon before Commissioner Obierne at two o'clock. Some thirty persons assembled in the Circuit Court-room, among them William Blanding, formerly U. S. At-torn-y but now Harbor Commissioner; C. Burch, J. H. Mulian, Sol. Sharp. Milton Anders and Lawrence Doyle, one of the arrested parties. Mr. Coghlan suggested that the seven or eight cases now in the county jail be taken before Judges Sawyer and Hoffman, the highest United States authority here, to-morrow and have the right of arrest tested. He also stated if the Judges would hear the cases to-morrow he would suggest to the U. S. Marshal to make no more arrests until the matter was determined; he did not want to stop arrests indefinitely, but wanted arrested every man, white, black or copper colored, who was trying to get on the great register improperly; he pre ferred to do it before election day to save time on that day and avoid disturbance at the polis. Mr. Coghlan and the legal gentlemen then withdrew to the cham-bers of Judge Sawyer, and after the consultation they returned and Mr. Coghlan aunounced that it had been agreed that the matter would come up before Judges Sawyer and Hoffman at 11 o'clock tomorrow on law points but the facts would be heard hereafter; the parties arrested could go on their own recognizance, but would be required in Court to-morrow. The meeting then adjourned. The Trustees of the Consolidated Virginia Mining Company met to-day and declared their thirty-first consecutive monthly dividend of two dollars per

San Francisco, Nov. 3.—The German Democrats held a very large mass meeting at Platt's Hall last night and the Republicans one equally large at Union Hall. United States Deputy Marshals yescontent states Deputy marshals yesterday arrived with warrants and went on a raid after illegally registered voters and colonists, and succeeded in bagging five during the day, who were lodged in the county jail. Satz Lake, Nov. 2.—A report from Camp Stambaugh, Wy., says: A village of fifty lodges of Shoshones was attacked on October 30th by a large Sioux party, estimated at 1,200 lodges, at Painted Rock, near the scene of Captain Bates' fight in July, 1874, and about ninety miles from Camp Stambaugh. As far as learned only one Shoshone by the name of Humpy, escaped, being the same In-dian who saved the life of Captain Henry

in Crook's second fight this Summer. There was an effort made yesterday to replevin the property of Brigham Young that had been sold at auction by the Court Commissioner. The Judge for-bade the Clerk of the Court to issue and file the necessary papers, but reconsidered his action to-day, and the papers have been issued and the property is now in charge of the United States Marshal.

#### From Rev. Sylvanus Cobb, of Boston, formerly Editor of the "Christian Freeman."

DEAR SIR:-It may be some satisfaction to you to be informed of the result of the trial of the Peruvian Syrup in my family. My daughter was brought low by typoid fever last Spring, and after the fever left her she continued very weak, and the simplest food distressed her. For months she remained in the same debilitated condition; but from the first of September last, when she commenced taking the Syrup, the digestive functions improved, and she steadily gained strength and vivacity; and now, after taking two bottles, she is restored to a good state of health; indeed, she appears more really healthy than she has for several years past. I am of opinion that the "Protoxide of Iron" contained in the Peruvian Syrup, was adapted to her case, and effected what no other known medicine could have effected.
